PROFILE

Dedicated healthcare professional transitioning into Diagnostic Medical Sonography with a background in Obstetrics and Gynecology, passionate about patient care, medical imaging, and diagnostic accuracy.

WORK EXPERIENCE

Shweta has worked as a Medical Assistant at Clyde Medical Centre in Ottawa, assisting with patient intake, and supporting physicians ensured efficient clinical workflows. She also gained experience as a Pharmacy Assistant, managing medication dispensing, inventory, and administrative duties. Previously, she was an Assistant Professor and Consultant Doctor in India, providing patient care and mentoring medical students. Her experience in women's health and diagnostics provides a strong foundation for her transition into Diagnostic Medical Sonography.

EDUCATION

Shweta holds an MD in Obstetrics and Gynecology from Parul University, India. Recognizing the crucial role of sonography in early disease detection and treatment, she chose to transition into this field. She is currently enrolled in the Diagnostic Medical Sonography (DMS) program at the Canadian National Institute of Health (CNiH), Ottawa. This structured program includes lectures, lab training, and clinical practicums. She is set to complete the program in August 2026, after which she will be eligible to take the registry exam and become a certified Diagnostic Medical Sonographer.
